								I don't think that the outlook currently is an issue. I have gone up there since I moved to Wenatchee, to enjoy takeout and to look at the city at night. If there are issues with speeding or illegal activity, isn't that what we help to pay police for?
3/6/2018 14:41	134.39.153.20	1						To solve the issues that I've heard from community members, why don't we just have police patrol the area more. That doesn't mean they have to harass those that are enjoying the views, but just make their presence known. Before long, any issues that were taking place, would probably reduce.
								The Wenatchee World article conflates two distinct problems. 1) speeding on Skyline Drive, which is omnipresent and never enforced 2) disruptive activity at Skyline Overlook (drug use, noise, littering)
								Undoubtably some of the bad actors at the Overlook are also speeders, but changes to the Overlook will not affect speeding on Skyline Drive in general. Only traffic enforcement and issuing of citations will do that, and that never happens.
								Simply eliminating vehicular access doesn't really make sense, since the usage is almost exclusively vehicular - at that point it should be closed completely. I doubt that security cameras will have much impact, but are worth a try. It would be a shame to close the Overlook, sometimes you just have to accept some youthful shenanigans as a part of life.

3/1/2018 7:13	144.191.148.15	1						It's sad that a single persons compliant spurs a change for the entire community. It's likely the people who own lots or live next to it that have financial interests in shutting it down. Single person gain vs the community benefit. I will note- that the article stated "A" citizen complained which is singular. Could be more of course which in that case sure lets vote on it.
3/1/2018 19:00	147.222.239.242						1	Don't shut it down. If sketchy, stupid people hang out there it is an easy spot for police officers to find them. The majority of homeowners likely moved in after it was an established hangout spot. I'd spiff the place up, put in a picnic table and make it more homely so that it will attract a more quality crowd and will thus deter highschoolers from going up there to get stoned on vape pens. If you get rid of it, you will kill an iconic Wenatchee hangout.

3/1/2018 8:19	166.6.172.253	1						I appreciate the traffic and speed concerns from neighbors/residents. However, the establishment of this overlook preceded the ownership of these houses by the majority of the owners and they purchased their homes with the knowledge that this overlook existed. I feel that there are creative ways by which we can modify people use/behaviors to help alienate some of these issues. This is a public spot and I hope it stays this way.

								<p>The fatal accident was COMPLETELY unrelated to traffic at the overlook and mentioning on Page 1 was just asking for a negative response from the public.</p> <p>Nobody should be allowed to park at this overlook for more than 30 minutes. It is not, and should never be a Park N Ride location.</p> <p>The majority of people always seem to have to pay for the mistakes made by the minority. And half of the problem is growth in the valley, but another big part was the land around the overlook being sold for residential development instead of being pulled in as a city park years ago.</p> <p>If I had to CHOOSE ONE, I'd choose to leave the overlook as it is - but why not combine options 1 and 2 as a possibility? Installing security cameras isn't exactly molesting the site, it's just adding a level of protection.</p> <p>Additionally - your demographics need to ask HOW LONG someone has been a resident of Wenatchee. I welcome growth and new neighbors but I am vehemently opposed to people moving here and demanding we change to their standards.</p>

								<p>Come on folks! Please DO NOT shut down another public access location to the public! To begin, the argument that drugs are concentrated at certain locations is a falsity- they're everywhere! Let's take a drug dog to a local grocery store, and see how many people stop shopping at our local grocers because drugs are present at those locations. This to simply point out that these issues exist everywhere (we just aren't aware of it), but we are fortunate to have police officers who can control the contraband when it manifests at a public location. How many drug calls are made at other public parks? Do we shut them down? Do we shut them down because of parking, traffic or speeding issues? I hope no one near the Town Toyota Center/Walla Walla Point Park complains, and we are asked to shut down these public locations due to the problems I previously mentioned. Skyline drive is inherently dangerous. Many people have been injured and killed- from local doctors to young adults. Let's give people a safe place to be able to pull off and view the valley without taking their eyes off the road! Many walkers, bikers and others drivers share this road. Also, for folks with disabilities, this is the only place to view our beautiful valley! One could argue a hike up Saddlerock would provide the same view; however, what about those who are disabled or elderly? The places for the disabled or elderly to take in the stunning views of our (or any valley for that matter) are far and few between. When my legs fail me, I hope to be able to drive to the same outlook that so many generations of Wenatchee's citizens have done and see the amazing sight that is our home! There is something magical about our community and being a part of it when at the viewpoint!</p> <p>Ps. Please do not sell the land! There will be no views unless you can afford to live in the skyline neighborhood. Only one lucky person/family will get to have what has been shared by generations!</p>

								While I don't live in Wenatchee any longer, I was there from 1966-1985 and still have family so visit often. There's a point when you give in and adapt to the fact that people use it for various (both legal and probably illegal) activities. Why not turn it into an actual park with grass, picnic tables, some parking, maybe restrooms? Have actual park hours where law enforcement can intervene with people there while it's closed. I know there are limited options due to current building code and ADA requirements, but I would prefer that to selling it.

								Add signage with hours open. Have patrols or police officers drop by...looks like if there was a party going on by closing each side exits from the overlook, you could arrest each and everyone in attendance...with the cars parked, and if they ran for it, so be it...all you have to do is impound the cars, and let legal action begin against the parents/owners. They can't drive away so car is impounded/ towed and no parent is going to put up with that very long. Too nice of viewing area to just close because it takes a little (or lot) of monitoring by police, maintenance, neighbors. How about putting some of the young people getting into trouble, keeping the place cleaned up for community service?

3/1/2018 8:26	198.90.11.25						1	The overlook provides an important and delightful view of Wenatchee enjoyed by residents and visitors. Let's improve it to address concerns. Install map/interpretive sign(s), benches and reduce and designate parking so it's less of a "pull out" and more a destination. Parking limits of 1 hour, or closing it overnight (10 p.m. to 5 a.m.) would give law enforcement and neighbors leverage to report rowdy and/illegal behavior and enforce safety for all.

							<p>This type of issue is ubiquitous in towns across America (I have lived in many places during my life and can speak to this personally). The solution is not to shut off access to parks simply because a few people are causing problems. Proactive solutions include improvements to after school programs for kids and young adults. Increasing funding for community sport and academic activities outside of school hours are generally the best way to combat these types of situations. Programs like these lift the entire community up and empower young people to be their best selves. Wenatchee is a changing, growing community. It is vital that this town looks at the big picture and is forward thinking in how it handles situations like these, which includes long term planning for serving the most important group of people a community has, its youth.</p> <p>I have read the transcript of the original complaint. I also do a fair amount of driving around Wenatchee. It seems like Wenatchee has a large, well funded, and active police force. An immediate action that could taken is simply having a patrol car stationed at or near the lookout for a couple weeks in the evenings/after dark to remind fast drivers that they should drive carefully.</p>

3/1/2018 12:20	206.130.136.106		1					Establish parking hours. Between particular morning and evening hours. Then deem the park closed with appropriate signage. Have the city police drive by that area during the hours closed and give citations to those who are in violation. It may take a month or two for the citizens (kids) to figure out they need to find another place to go. Shutting it down would be a terrible option.
3/1/2018 13:24	206.130.136.46					1		Make it pedestrian access only. 								I enjoy going to Skyline Drive and still see the beautiful view of the valley, which makes it easy for me to access the view area without having to get out and hike I enjoy comparing the views I had there in the 60s and all the changes in the valley over the years. It is something I look forward to when I travel back to Wenatchee to visit my brother. Perhaps it's just nostalgia, but memories are important and I would like it kept much the same as it has been. 								The Overlook has been a convenient and traditional place to stop and appreciate the beauty of the valley we live in, especially in the evenings. Without it, people would just pull off on the edge of the road creating a hazard. Because I don't see a list of complaints about the Overlook as it is, I can't address them. However I think that at least some could be resolved by improving the area in a number of ways rather than closing it. We should not sacrifice traditional scenic vistas to the machinations of developers. These beauty spots should remain available to all.

							<p>Mayor Kuntz, members of the City Council and members of the Arts, Recreation and Parks Commission,</p> <p>I moved to Wenatchee in 1991. I lived a few years in Olympia and a few years in Omak, but have always returned to Wenatchee.</p> <p>Any time I have family or visitors to the area come for a visit, the Skyline Drive Overlook is the first place I will take them to get a "big picture" view of the place we call home. Because of its location, people of all ages and abilities can enjoy it.</p> <p>Cameras would be alright if there was an incident that needed to be looked at, but the idea of a neighborhood block watch doesn't seem feasible (unless the neighbors wanted that). Since it's right on Skyline Drive, it seems that a drive by, by WPD or CCSO, throughout the dusk to dawn hours would be very doable as a deterrent? Or perhaps a posted "Dawn to Dusk Only" sign, giving law enforcement the legal ability to "educate" anyone there after dark to move on.</p> <p>Bollards to eliminate vehicle access, eliminates a segment of the population that most benefits from the pull out. Without access you are creating a safety hazard by having cars pull off the side of the road elsewhere.</p> <p>Close and sell. NO. With more and more open spaces disappearing it is important to preserve what we have. As we've all watched orchards get pulled out to make way for more homes, we need to continue to set aside no development areas to prevent more sprawl, especially towards the foothills.</p> <p>Additional improvements? Maybe. A picnic table or two. Vandal proof and secured of course.</p>

							Use the space to make Skyline drive a safer road. Perhaps long ago Skyline was adequate, however, this road is, in my opinion, one of the least safe roads in our area. This road needs to be widened, and adequate shoulders need to be added. This could be a beautiful bike ride, run or walk in our city. I strongly believe that the park should be closed. As a Wenatchee resident, I would never stop there to view our city, nor would I take visitors to the lookout or allow my kids to hang there. The activity that occurs at the lookout is not safe. In addition, I believe the presence of the earsore of a park reduces the value of the properties surrounding it.

3/6/2018 14:20	66.172.117.196	1						I think the entire issue that was brought before the city council is ridiculous. If there has been a dramatic increase in illegal activity at the Overlook, then the WPD should have statistics to back this up - and then this should be studied. If there has been no increase in illegal activity or noise complaints, then this is a complete waste of city resources.

3/1/2018 11:06	66.172.96.150					1		It's too bad that the Skyline overlook has been overtaken by a steady stream of young people (probably high school students) who continue to use it for objectionable purposes. Additionally, they present a constant road hazard around the Skyline bend. For these reasons, I think only foot traffic should be allowed at the overlook. Many people walk the full length of Skyline, so restricting car access would not keep local residents from enjoying the overlook.
3/1/2018 11:32	66.172.96.189	1						I'd like to see a comparison of calls/complaints of this location to any other park or public space in the commission's jurisdiction. Is it really that bad? I also adamantly oppose decommissioning and selling it,.

2/28/2018 18:30	71.93.7.193			1			<p>I often go to Saddle Rock via Skyline for exercise. Numerous times I have driven by and noted trash and "punks" hanging out. I can just imagine the homeowners right by this spot must be frustrated. There are numerous other places to "hang out" or "hook up". Why have this nefarious element right in the middle of an otherwise quiet area that probably does not otherwise need much policing resources. Skyline is a winding 25 mph road with numerous hidden driveways. I am frequently tailgated (while doing the speed limit). I suggest fully decommissioning the pullout and creating a lot for someone to buy and build a home on. Structure the sale of the lot in such a way that the money goes to Wenatchee parks or young adult programs. I have driven by for decades and have noticed a huge increase in activity there over the last few years. I recognize that it is a spot that has a special place to some of us, and many just want to enjoy the view or eat lunch. Unfortunately, what is noticed is more punks and more trash and more smoke (pot?) and more speeders and more wrecks and more near misses or worse like the recent girl's fatal injury or something like Dr. Ed Farrar. At least put obvious security cameras and signage there. (Smile you are on camera!!! These cameras monitored 24 hours a day)</p>

3/1/2018 16:50	75.139.178.124				1		Traveling skyline is a very enjoyable experience. The lookout is a very lovely way to share the beautiful view with the valley. Many people enjoy walking, running and biking over skyline. Such activities have become increasingly dangerous in the last few years due to the increased traffic and speed of drivers. Traffic and congestion created by the lookout has increased the dangers of using this road. I suggest studying the traffic patterns related to the lookout and installing speed bumps and the sidewalk and downward pointing lighting that does not detract from the night time view.

The overlook on Skyline is more than just a hangout or a place to impress girls with the nighttime view. It's a place where people build memories and friendships. A place where people can unglue themselves from their phone and enjoy the view of our valley. Don't take this away from our community. It's one of the last few hidden treasures we have.</p>

							I don't think I've ever stopped at Overlook, but it's a Wenatchee landmark, and I like that if I choose to I can. Two complaints from the public is not enough to close it down. It would make sense to monitor the issue, to see if it really is a problem. Security cameras, and perhaps a no parking curfew after dark would be good ideas. This might require installing gates that could be closed. Whilst I can appreciate the local residents concerns, this seems to be a bit of a knee-jerk reaction.

							The Overlook has been used and enjoyed by many many people over the years. To think that one person, especially one who doesn't live in close proximity to the Overlook, could shut it down, is just wrong. Maybe all the residents of the Raquet Club condos would be better served to petition management to fix the issue of their hidden driveway, and almost zero visibility when trying to exit said driveway, instead of closing a park several blocks away.

									<p>The Overlook is a dangerous place. It is the site of drug deals gone bad, shootings, and the out of control automobile traffic it has created is a danger to anyone in the neighborhood. Red Apple Road and Skyline Drive have a speed limit of 25 mph which is never observed and never enforced. Closing the Overlook will eliminate some of the excessive speeding on these roads. It is not unusual to have cars speeding in excess of 40, 50, and 60 mph on this road, many are just coming and going to this Overlook. The Overlook is not the entire problem, but it is a big part of the problem. The one posted speed limit sign on westbound Red Apple Road was poorly located and then removed several years ago. It has not been replaced. Cars eastbound come down the steep Skyline Drive going too fast to see or observe the one posted 25 mph speed limit sign. A temporary readerboard type radar observation device works only for a pass or two by the speeders, it is quickly ignored by the offenders. Red Apple Road is a narrow old street with heavy congestion at various times of the day. It is used by many pedestrians, walkers, joggers, and bicyclists, school buses, and emergency vehicles (Regency Manor) and needs help before it is too late.</p>

							Leave it alone. We Wenatchee natives grew up with it. It's one of the only places to get a good overview of the valley. Don't let a few abusers and complainers ruin what has been a part of our culture for decades! You can bet that none of the long time residents are complaining about it. If anything, Skyline Drive should be widened, which is likely impossible and way to costly.
