Re: Support for the Apple Capital Loop INFRA Grant

Dear Secretary Buttigieg:

On behalf of the citizens and businesses of the Wenatchee Valley in Washington State, we urge support for the City of Wenatchee's application for the Apple Capital Loop INFRA grant. As president of Wenatchee Valley College, I assure you that we wholeheartedly believe this grant, if provided, will significantly advance our regional economic opportunities for decades to come.

The Wenatchee Valley is located in North Central Washington State, a rural area comprised of about 87% government owned land. Located 150 miles east of Seattle in Central Washington, it is at the crossroads of highways going east to Spokane, west to Seattle, north to British Columbia, and south to Yakima and the Tri-Cities. The City of Wenatchee serves as a key transportation hub even though it is 40 miles from the nearest interstate. Wenatchee Valley is home to the regional commercial airport, Pangborn Memorial Airport, and is a major crew change and switching station for the Burlington Northern Santa Fe mainline that connects Chicago with the Northwest Ports.

The Apple Capital Loop project is the result of years of planning by regional jurisdictions and broad community engagement in the Wenatchee Valley. The Apple Capital Loop supports economic vitality on a local, regional, and national level by bringing together vital, interconnected projects that comprise the backbone of our regional transportation network, and the local component of the National Highway Freight Network (NHFN).

Specifically, this multi-modal network of projects will yield improved safety, system reliability, and congestion relief coordinated with deployment of a modernized, rapid-charge battery electric commuter transit system with faster speed and increased frequency. The impacts of climate change and recent fire events underscore the important safety element to implementing this project. The Wenatchee Valley, surrounded by publicly owned forest lands, experienced extreme wildfires in 2014 and 2015. The Sleepy Hollow fire burned more than 30 acres within the City's urban core. These events impact the entire region but especially our most vulnerable populations which are more susceptible to wildfires, floods, and other natural disasters. The Apple Capital Loop will

enhance our ability to respond to future emergencies and safely evacuate citizens, particularly through the Confluence Parkway bypass segment.

This INFRA grant will be combined with more than \$100 million of other local public and private funding to complete the Apple Capital Loop. It will leverage more than \$200 million of investments by our agricultural sector in production, storage and transportation. The project will create new investment opportunities for business and housing by accessing vacant lands. Our project managers will be using innovative methods for project delivery and streamlined permitting.

Thank you for your consideration of this application. This INFRA Grant will significantly advance the health, safety and economic welfare of this community for decades to come. We are rural, we don't have the benefit of an interstate, and this project provides opportunities to highlight the ability of a region to come together and use federal, state and local funding in an efficient and effective manner. The region's future depends on the completion of the Apple Capital Loop.
