

WCC Expansion and Renovation Project – Informational Meeting Notes

Minutes from May 30, 2024 Meeting

Meeting Notes:

- City staff shared photos from job site and reviewed city's website which includes up to date information, frequently asked questions, and weekly newsletter.
- Major demolition activities are almost done, mass excavation lasting approximately 3 weeks will begin next week to be followed by setting and forming concrete, PAC/WCC existing glass walls will be removed starting next week.
- Project is on-time and on-schedule.
- WDA is grateful for access considerations and the information provided on the website; they have not received major complaints to date.
- Project will have a sign on the fence with a rendering of the finished project and QR code that leads to the website.
- City has developed a rack card that can be shared with visitors and/or other businesses.
- City will schedule the next information meeting pending milestones and will offer a hybrid option.
- WDA has updated their website and has a business directory if businesses want to list their information; recently implemented a Block Captain Program for information sharing on WCC project and more downtown happenings.

City Action Items:

- Review detour signage location in order to remove confusion about North Wenatchee Ave access and street closure.
